We were warned decades ago how America would be overthrown via The Bezmenov Plan: The Four Stages Of Communist Subversion: 1) Demoralization, 2) Disorientation, 3) Crisis, and 4) Normalization

President Joe Biden's welcoming Easter Sunday message posted on X that, *"Today, on Transgender Day of Visibility, I have a simple message to all trans Americans: I see you..."* was shocking. Most could not understand how the President's judgment can be so skewed on the most holy day for Christians.

As offensive as this was, it provides a window through which all can see what's happening. With Biden's cognitive decline being so obvious, there can be little doubt that ***he is being used by internal and external enemies of America intent on breaking down the constitutional republic of the United States without firing a shot.*** And it's not hard to recognize the plan being followed is parallel to the blueprint plan revealed forty years ago by Soviet defector Yuri Bezmenov, who ***explained the four stages of communist subversion: 1) Demoralization, 2) Disorientation, 3) Crisis, and 4) Normalization.***

The United States has been under prolonged internal attacks of demoralization for several generations, through the educational system and the culture ***which have delivered messaging that disparages the United States and derides traditional values.***

The second stage, ***known as disorientation***, is most successful after a large portion of the population has been demoralized. ***Covid-19 brought about disorientation*** through mask mandates, social distancing, quarantines, lockdowns, and the abandonment of best medical practices of preventative and therapeutic treatments. Another important part of disorientation that was inflicted on America at that time was the ginned-up racism after the death of George Floyd, which triggered rioting, looting, and destruction of several billion dollars' worth of property and the tearing down of historic statues and memorials in many cities across the United States.

What added to the disorientation of Americans at that time was that for weeks nobody seemed able to do anything about the rioting, lawlessness, and destruction going on in big cities across America. There were few arrests while some 1,000 police officers were injured and 33 were killed. At the same time cities with the most lawlessness like Minneapolis, Seattle, New York, Los Angeles, Chicago, Philadelphia, and Baltimore initiated efforts to defund their police and law enforcement.

When nothing makes sense, the subliminal message is, *"This is not the America you know, it's a new world that you have entered."* ***This was as close to a mass state of disorientation in a time of relative peace as Americans have ever experienced.***

The stage that follows *"disorientation"* is the *"crisis"* stage. ***The crisis stage would come in November 2020 with election rigging.*** The fear factor of Covid contagion was exploited by Democratic operatives who brought change to swing state election rules that greatly expanded mail-in ballots and drop boxes, which everyone knows facilitates vote fraud.

Simultaneous to the changes to election rules to facilitate stuffing the ballot boxes, a social media censorship and cancellation campaign was undertaken by the Stanford University-based NGO Election Integrity Project (EIP) in consultation with the *Cybersecurity and Infrastructure Security Agency* (CISA), a unit within the *Department of Homeland Security*.
